Assistant Commissioner for Patents,

Washington, D.C. 20231

S I R:

In response to the Office Action dated November 26, 1999, Applicant hereby  
amends the application as follows.

IN THE CLAIMS

In claim 12, in line 1, insert --a-- preceding "stability", and insert --of said body--  
after "stability".

REMARKS

In the Office Action dated November 26, 1999, claims 1-20 were rejected under  
35 U.S.C. §101 because the Examiner stated the claimed invention is directed to non-  
statutory subject matter, the Examiner contending that Applicant is attempting to claim  
an algorithm because there is no pre-processing or post-processing of real data.

Applicant respectfully traverses this rejection because Applicant submits that the  
Examiner is using an outmoded definition of, or criterion for, statutory subject matter.  
To the extent that the Examiner has adopted the criterion of whether pre-processing  
and/or post-processing of real data exists on the basis of the guidelines set forth in
